Anyone who needs a COVID vaccine can schedule online by visiting: www.wyomingco.net and selecting “COVID-19 Vaccination” under *Quick Links* or by calling the Wyoming County Response Line at 786-8911. Locate other vaccine clinic locations at the Vaccine Finder [HERE](#).

- Wyoming County COVID-19 metrics are showing a decline in daily case reports. This is a positive sign! Please continue with protective measures that will allow these declines to continue and protect our most vulnerable residents. To keep workplaces and schools open, please do your part:
 - Wear a mask when indoors or at crowded outdoor spaces, regardless of vaccination status.
 - Remain home when you are sick and get tested if you suspect COVID.
 - Isolate if you are positive and let your close contacts know they may have been exposed.
- Libraries in Wyoming County will have a limited supply of COVID-19 test kits to distribute to residents during normal business hours until the kits are gone. The Health Department does not have free at-home test kits or KN95 masks; please do not call or visit the Health Department for test kits or masks.
- The Wyoming County Chamber of Commerce has received a very limited number of COVID-19 test kits for distribution to businesses. There are 10 tests per box and only one box per business will be given. The kits will be distributed on a first-come/first-serve basis. If you are interested in receiving a

test kit, send an email to sgardner@wycochamber.org to make arrangements for pickup. If you have already emailed, your kits are ready to be picked up.

- Wyoming County residents can visit www.wyomingco.net and choose “Report a Positive COVID-19 Home Test” option under *Quick Links* to self-report a positive at home COVID-19 test. After submitting a positive result you will be able to print an “AFFIRMATION OF ISOLATION” if needed for school or work. The state is moving to self-management for anyone who tests positive or who is exposed.
- The Wyoming County Health Department will offer ***COVID-19 testing on Monday and Thursday*** each week. Testing will be “drive through” style at the Wyoming County Highway Department located at 4328 Route 19, approximately 4 miles south of the Village of Warsaw. Results are available the same day and there is no charge. To schedule an appointment for a COVID- 19 test please visit the Wyoming County Website [HERE](#) or www.wyomingco.net and choose “COVID-19 Testing Clinic Registration” under *Quick Links*. Call the Wyoming County Response Line with questions or for assistance at 786-8911.

Wyoming County Board of Supervisors Chairwoman, Rebecca J. Ryan announced as of Thursday, February 3, 2022, the Wyoming County Health Department reports seven thousand five hundred four (7,504) lab-confirmed positive community cases of COVID-19 among Wyoming County residents. There is an increase of three hundred twenty (162) total cases since the last reported increase on Thursday, January 27, 2022.

County	Cumulative Positive	Weekly Reported Home positive	Weekly Reported Lab positive	Wyoming County Fatalities	# Wyoming County residents with at least 1 dose**	% of all Wyoming County residents with at least 1 dose
Wyoming	7,504	60	102	80	22,877	57.1%

All data are provisional

***Wyoming County residents with at least one dose of COVID-19 vaccine.*

Given recent changes announced by the NYS Department of Health, the format of weekly Press Releases may be subject to change. The NYSDOH COVID-19 data dashboard can be located here:

<https://coronavirus.health.ny.gov/covid-19-data-new-york>. Community transmission of COVID-19 is very high, please wear a well-fitting mask in public settings and stay home and isolate from your household if you are sick.

The Centers for Disease Control and Prevention (CDC) also maintains a county-level [COVID-19 data tracker](#). The CDC tracker provides up-to-date information about COVID-19 testing, cases, hospitalizations, and deaths. The tracker contains data for all US counties allowing for regional comparisons.
